VOL. LXXXII—NO. 118. WILMINGTON, N. C., TUESDAY, AUGUST 4, 1908. WHOLE NO. 12,770.

Library of Congress

OUTLINES.

The Inter-State Commerce Commission makes a decision in the case of the Florida Fruit & Vegetable Shippers' Portective Association against the Atlantic Coast Line involving the freight rate charges from Florida to northern points. Some of the points decided are in favor of the petitioners and some against them——There is no change in status of litigation over proposed increase of freight rates in Southeastern territory——There was a serious clash between negroes and sailors in Berkeley, Va., Sunday, and but for the timely arrival of civil officers and hurrying the negroes to Norfolk they would have been lynched——Yesterday was the opening day of the convention in Boston of the several Pythian orders——Chicago had a million dollar fire yesterday in the burning of two grain elevators, a railway warehouse and 100 freight cars——The itinerary of the Pacific fleet to Samoa via Honolulu was given out yesterday. It will sail from San Francisco on the 24th instant——An important conference was held in New York yesterday between Norman E. Mack, chairman of the Democratic National Committee and Charles F. Murphy, leader of Tammany Hall, the session resulting in outlining the militant campaign to be waged in New York State by the party. Chairman Mack made a statement that Mr. Bryan will make few speeches and that most of his speech-making will be in doubtful States——Victor L. Mason will be temporary manager of the Republican headquarters in New York, during the absence of Chairman Hitchcock——The acceptance speech of William J. Bryan will be very short, the issues of the campaign being covered briefly——James Riddle was shot and instantly killed by his son, Thomas Riddle, at Cotton, near Fayetteville, Sunday night. The young man made a statement in which he said that his father attempted to kill him with a board and that he was on his way to get a pistol to kill the family when he shot him——New York markets: Money on call easy 3-4 to 1 1-4 per cent., ruling rate 1, closing bid 1, offered at 1 1-4, time loans slightly easier and dull. Spot cotton quiet, 10 points higher, middling uplands 10.70, middling gulf 10.95. Flour firmly held, but quiet. Wheat, spot strong, No. 2 red 1.01 1-8 to 1.02 5-8 elevator, closed 2 1-8 to 2 1-4 higher. Corn spot strong, No. 2, 86 nominal elevator. Options closed 5-8c higher. Oats spot easy, mixed 57 to 59. Rosin quiet, strained 2.90 to 2.95. Turpentine steady.

Mr. Farman thinks, of course, that he has the aeroplane which will do the work.

Mr, Taft says he is tired and wants a month's rest. He can have forty-eight of them after next November.

Just three weeks from today the fun will begin in Charlotte, it being the eve of the Republican State convention.

What does Colonel Graves expect to gain by being the tail of a ticket which is so weak that it cannot even wag its tail?

The Duplin Journal says everybody about Warsaw and Clinton is coming to Wilmington and the beach on the excursion next Friday.

Tom Watson gets caught in his own trap. A search of the records shows that he did not vote for Crisp but voted for himself instead.

Georgia Legislators continue to get into trouble. Five of them were caught at a poker table in the Kimball House in Atlanta during a police raid the other night.

Wonder if the campaign committees will also make public the offers of contributions which were refused because they were too large or came from corporations?

From the way State Chairman Eller starts out it looks like he is going to conduct an aggressive campaign. There will be hot times in the Old North State before long.

What does Hearst expect to gain by fighting both the big political parties if it is not to make terms with one or the other of them before the hhowing of hands is made?

Wonder if Colonel Graves will follow the example of Colonel Bryan and vacate the editorial chair during his campaign, or will he hold on in order to write editorials advocating his own election?

In Richland county, South Carolina, there are 82 candidates for nomination to the county offices, eleven of these for the House of Representatives. The Democrats will hardly get through holding primaries in time for the election.

The News and Observer publishes a cartoon of Taft reading his speech of acceptance to the President. Underneath is the declaration "Taft wrote some of it all by himself." But the public does not know which part was his and which was the other's.

(Special Star Telegram.)

Raleigh, N. C., Aug. 3.—A sensational catch by Hoover in a beautiful double play, Payne, Farmer and Hoover, was a feature of one of the finest games of the whole season in which Raleigh was the victor 3 to 1 this afternoon.

Wilmington's run in the second was due to bold taking of chances by Flynn in base running and a combination of wild throws by Raleigh. Two men, Doak, and Wagner, were down when Flynn drove a pretty two-bagger to centre. Dawson made to let it pass, Warren threw to Farmer at second and he to third to intercept Flynn who was in "a steady gait" heading that way. The ball went over Hoover's head so Flynn made the home plate amid wildest excitement of the bleachers and grandstand.

Raleigh put in two runs in the fifth. Wrenn was out to catcher. Payne got his base on balls. Burke hit to center, Hoover to right and Payne scored. With Warren up the ball was thrown to second to catch Hoover, who was safe and Burke scored. Then Warren hit to center and Hoover was put out at the plate. In the eighth Burke hit to centre a two bagger, Hoover hit to left and Burke made third. With Warren up an attempt to catch Hoover at second and Burke was out on an attempt to steal home. Warren hit in left field and Hoover scored.

Game at Wilson.

Wilson, N. C., Aug. 3.—'Twas hard to shut out the Tobacconists but Goldsboro did that very thing this afternoon by an error on the part of the home team. It was a beautiful, hard fought, interesting game from the first man up to the last man down and was highly enjoyed by the large crowd present. Features—the all-round playing by both teams, but the star play of the afternoon was the spectacular one hand catch by Guerrant for the locals.

Wait! Wait for the Broken Lot Sale Monday, August 10th. J. H. Rehder & Co., will inaugurate a Broken Lot Sale: A sale of perfect merchandise limited only in quantity at a saving to you of 25, 40 and even 50 per cent. off on new seasonable goods. This sale will be exactly as its name implies—a sale of broken lots, short ends, odds and ends from the largest manufacturers and wholesalers in the country. It will pay you to wait and not buy one cents worth of goods until Monday, August 10th when Rehder's Sale begins. **

DAMAGE BY HIGH WATER

Wide Area of Holly Shelter Section of Pender County is Flooded and Families are Driven From Their Homes.

According to reports which reached the city yesterday, thousands of dollarge of damage in the destruction of crops and live stock has been wrought and between thirty and forty families have been forced to flee from their homes as the result of high water, which covers an area within a radius of seven miles at the confluence of the Northeast and Shelter rivers and Shaken creek, six miles east of Burgaw, in what is known as the "Holly Shelter" section of Pender county.

The flood is the greatest on record and is said to even exceed the fearful deluge of 1835, beyond which the memory of the oldest inhabitant runneth not to the contrary. The water is still rising and parties who came down from Burgaw yesterday and last night say that unless the high water soon recedes there will be actual suffering in the flood region of the county. Some estimates of the damage run as high as $100,000. The flooded area comprises a very fine farming section and crops are nowhere to be seen for the vast expanse of surging waters. Every county bridge from Sarecta down, on the Northeast river, is gone and not a few buildings, including homes of well-to-do farmers in the section are reported to have floated from their foundations, the inhabitants being forced to seek the hospitality of their neighbors higher up. The Northeast river is higher than in 40 years and authorities say it will continue to rise for five days, so that the worst of it is yet to come.

Mr. R. E. Blake, of this city, whose old home is in the flooded district, returned yesterday from Burgaw, and gives a graphic description of the high water. Croom's bridge and Croom's store on Northeast river have been washed away. Smith's bridge is also gone, together with Bannermann's Bridge and Blake's bridge and storehouse on Shelter river. At Lane's Ferry, near Rocky Point, yesterday three men in a boat paddled into the store of W. H. Malpass and saved what they could above the water level at the counters. Shelter bridge over Shelter river and Shaken bridge, over Shaken creek, have all gone the way of the rush of waters and Humphrey Brothers' store and Blake's storehouse have all been swept away. The corn tassels on many of the fine farms in the area are just discernible above the level of the water and nearly all live stock has perished. Horses and mules in several instances have been saved by the owners on rafts.

The valley sections of these water courses in Duplin county are also said to have suffered greatly. Water was up to the counters in the store of Mr. G. B. D. Parker, at Chinquepin, Sunday, according to reports which reached here yesterday. While definite information of the ficod is wanting, the damage to crops, etc., is overwhelming and the calamity is a great one upon the people residing there. The water is said to be six feet higher than the freshet of 1835 according to the legends of that great flood in the community.

CLOSE OUT ENTIRE STOCK.

The C. W. Polvogt Co., Inaugurate New Method of Doing Business.

The closing out of an entire stock by a retail merchant, unless it be to retire from business, is something "new under the sun" but that is exactly what is proposed by the C. W. Polvogt Company, who inaugurate tomorrow morning what they are pleased to appropriately term their "Final Reduction Sale." They are not going out of business; of course, there is no more firmly established house in Wilmington than the Polvogt Company, they have a new method of doing business and this sale inaugurates the system.

The firm will begin tomorrow selling out every article in their large store opposite the postoffice at greatly reduced prices, this being done in order to begin business with their Fall and Winter stocks on an entirely different plan. In future at the end of each Summer and Winter season, the store will sell at some price every article in their store and start the new Spring and Fall trades with everything fresh and new from cellar to roof. Mr. Polvogt, of the firm, says that while selling out involves a large monetary loss in that all goods will have to be put down at the lowest possible figure to move them, that there will be much gained in beginning each season with an absolutely fresh stock. The plan, which is a radical departure from custom was adopted after much thought by Mr. Polvogt and he is certain that it will result in greater satisfaction to all concerned. Mr. A. L. Price, the expert decorator and ad writer for the firm, says that under the new plan, instead of retiring from business as this sale would seem to indicate, the firm is preparing to even extend and enlarge its various retail branches.

This Final Reduction Sale will run from August 5th to 15th and the reader needs only to read the large page advertisement in Sunday's and tomorrow's papers to gain an idea of what this departure really means to the Wilmington buying public.

ANOTHER BOND ISSUE

County Commissioners Desire to Continue Road Improvement and Build River Bridge.

MET YESTERDAY AFTERNOON

Send Reporesentative to State Meeting at Morehead—Regulate Speed of Automobiles—Much Routine Business—Notes.

At the regular monthly meeting of the Board of County Commissioners yesterday afternoon upon which Chairman McEachern and Messrs. Divine and Robertson were in attendance, the chief matter of public interest considered was the question of another bond issue for the continuance of the permanent road improvement of the county and for building jointly with Pender county a bridge over Northeast river at Castle Haynes to take the place of the present toll ferry in operation there.

Authority for another election on the question of a bond issue is granted in a special act of the last Legislature, though at the time of its passage, it was not known whether the Commissioners would find it necessary to act thereunder. The matter was very generally discussed yesterday afternoon and it was decided that a further issue of bonds, probably in the sum of $50,000, is necessary, if the road work is to continue and the Northeast river bridge is built. On motion the chair was instructed to have the necessary notices prepared relative to the election and submit same to the Board at its meeting to be held on August 10th. If voted, the present issue of bonds will be the third issued during the past ten years besides some expenditures from the general fund for road improvement.

Another matter of interest yesterday was the favorable reception of a communication from C. E. Foy, chairman of the Craven county Board of Commissioners, suggesting a State organization and convention of the boards of commissioners from all over North Carolina at Morehead City some time in the near future. On motion the clerk was instructed to answer the same, stating that the Board heartily approves of such an organization, and asking to be advised of the date of the meeting with the assurance that New Hanover will be represented. Matters of mutual interest to the counties and the State will be taken up and discussed.

Much routine business was transacted during the session yesterday. I Shrier and A. S. Williams, for reasons satisfactory to the Board were allowed to list their property for taxation. E. J. W. Anders was appointed to survey certain lands for W. A. Piner. Lee Justice, on petition of his sister, Mrs. Bertha Herring, was granted $25 toward his expenses in a deaf and dumb institution. B. F. Mitchell Company, was awarded contract for feeding live stock during August.

The clerk of the Superior Court reported $281.65 collected in fines, forfeitures and jury tax since last report. The largest fine was $200 from Geo. H. Brown, charged with running a gambling place.

A communication from numerous residents asking improvement of Middle Sound road, from the Scott's Hill road, was referred to committee.

Superintendent Hardee, of the County Home, reported 11 colored and four white inmates; two white and 13 colored convicts.

The Register of Deeds reported 15 white and 19 colored marriage licenses during the month.

Road Superintendent H. Hocutt reported 39 cars of rock used on Masonboro road and two cars furnished to the city. Foundation stone laid on half mile and quarter mile of Masonboro road completed, together with heavy fill at Hewlett's Creek. For 11 days Tidewater Power Company was unable to handle rock for the work. Much repair work was done. Prisoners lost 76 days work on account of sickness and five days by entire force of 65 men on account of rain. The superintendent recommends that the turnpike, Scott's Hill and Castle Haynes roads be repaired at once, rain and storms having done considerable damage. Motte's Creek bridge at Wrightsville and Hewlett's Creek bridge on Masonboro were carried away by the more recent storms and numerous wash-outs have occurred, this trouble with many fallen trees being cleared up as rapidly as possible.

The Superintendent of Health reported 11 cases of typhoid fever, one of hemorrhagic fever, one of meningitis and 3 cases of typhoid fever during the month, while 127 patients were treated in the office and 14 were visited at their homes. There has been little sickness in any of the county institutions, all of which are in good sanitary condition.

The county attorneys reported $91.95 net back tax collections during July.

The clerk was asked to request a written legal opinion from the county attorneys on jury tickets issued the

(Continued on fourth page.)

IN THE SUPERIOR COURT

Mary McDaniel Not Guilty of Arson. Other Proceedings Yesterday. Furman Lee Trial Begins This Morning.

Upon the resumption of the trial of Mary McDaniel, colored, charged with arson, in the Superior Court yesterday, upon admission by the Solicitor and Hon. John D. Bellamy, who was prosecuting in behalf of the State Insurance Department, that they could not make out a case against the defendant, she was discharged under a verdict of not guilty by instruction of the court, after having been in jail for a little more than a year.

The woman was represented by Brooke G. Empie and George L. Peschau, Esqs., who conducted a most vigorous and effectual defense of their client.

Today the case of young Furman Lee, a cotton mill operative charged with killing a colored boy at Owen Smith's restaurant in the Southern part of the city several months ago, will be taken up. The defendant will be represented by Messrs. Pait & Woody and the trial is expected to last several days. Cases disposed of yesterday were as follows: Turner McLean, larceny, 12 months on roads. O. E. McKain, larceny, verdict not guilty, upon point of defendant's attorney, L. Clayton Grant, Esq., that certain admissions were secured under duress. Robert Hill and William Lane, gambling; later called and failed; Hill sentenced to 60 days on the roads. Chas. Graham, larceny, 12 months on roads. Chas. Gore, carrying concealed weapon, judgment left open. William H. Willis, gambling; fined $10 and costs. Barnie Leard, pleaded guilty to numerous charges of larceny; judgment reserved. M. E. Guy, abandonment, pleaded not guilty; trial continued to later in the week. Robert Black, assault with deadly weapon, verdict not guilty; prisoner held for trial of second charge of same offense. Black was represented by Woodus Kellum, Esq., and the Solicitor was assisted in the prosecution by L. Clayton Grant, Esq.

ATTEMPT TO WRECK TRAIN

Negroes Piled Cross Ties on Carolina Beach Railway.

In their effort to get revenge, two unsuccessful attempts have been made to wreck the train at Carolina Beach within the past week, by placing obstructions on the track, which led to the arrest of Lander Wilson and Arthur Farrow, two negroes, Sunday afternoon. Both were brought to Wilmington and committed to jail by Justice Bornemann under a $1,000 bond each.

The nefarious act of the negroes was due to the fact that they were put from the train because they refused to pay their fare, from the pier to the Beach on Monday of last week. The two negroes live in the vicinity of the Beach and on Tuesday they made the first effort to wreck the train by placing a cross-tie on the track. However, this was discovered in time to prevent an accident and since this every precaution has been taken by the train crew to prevent any further attempt and during the night time a hand-car has been detailed for special duty to run in front of the train coming and going from the Beach.

Sunday afternoon about 3:30 o'clock when the train was making the run to the Beach, Captain McGhee discovered some obstructions on the track some distance ahead of the train and it was promptly stopped. The obstruuctions which consisted of cross-ties were removed for the second time and the train was allowed to proceed on the trip. As soon as the destination was reached the matter was reported to Captain Harper and in company with several other men they went through the woods in search of the parties. When they arrived near the place where the wreck had been attempted they found the Wilson negro and believing him to be one of the parties wanted he was placed under arrest. He was placed in custody of Captain Marshall Kermon and brought to Wilmington yesterday afternoon. While on the boat Wilson stoutly denied any connection with the affair, but told the officer that he did see Arthur Farrow place the cross-ties. As soon as the officer placed Wilson in the county jail he telephoned to Carolina Beach to have Farrow placed under arrest. This arrest was made by Officer Melvin Horne and the warrant was issued at the Beach by Justice Bornemann. Farrow was brought to Wilmington yesterday afternoon. The two negroes will be given a preliminary trial before Justice Bornemann this afternoon at 2 o'clock.

Captain Harper has been much annoyed lately by a crowd of negroes that live in the neighborhood of the Beach. They have been in the habit of riding on the cars from the Beach to the pier and acting in a very boisterous manner on the return trip. Captain Harper was determined to break-up the trouble and demanded fares of all on the train and a number of the negroes refusing to pay were ordered from the train, this being the direct cause of the attempt to wreck the train.

The Surf is Fine.
Are you going this afternoon? Cars to the beach every half hour.
tu-fri-sat-tf

A LENGTHY SESSION

Board of Aldermen Considered Many Matters at Meeting Last Night.

HEALTH OFFICERS ELECTED

Report of Sanitary Committee—Civic Improvement Suggested — Contracts Awarded—Hog Limits Extended—Departments.

The Board of Aldermen was in session three hours last night, a great number of matters of public interest having been considered, all of which will appear from the proceedings in detail as given below. Matters pertaining to the Health Department took up much of the time, the Sanitary Committee, after a lengthy discussion being upheld in its recommendation permanently dismissing Health Officer E. W. Hewlett, Messrs. Moore and Vereen being elected to permanent positions as inspectors and the scavenger system of the city being pretty generally aired in connection with an alleged refusal of the Superintendent of Health to endorse an application from Mr. J. H. Holton to engage in the business.

The meeting was called to order shortly after 8 o'clock, all members present except Aldermen Karr and Bolles, both having come in later. After approval of the minutes and various monthly reports, the call of standing committees was proceeded with.

Alderman O'Brien reported for the Finance Committee that no bids were received for the water and sewerage bonds and said that he thought something should be done in this matter. The Finance Committee was authorized to take such action as is deemed expedient.

A tax of $3 per quarter was imposed upon renovators of carpets, rugs, mattresses, etc., in lieu of the tax now on the books, but impossible of collection. This upon recommendation of the Finance Committee.

Chairman Ellis of the Sanitary Committee, reported some trouble with sewerage on property of T. F. Bagley, which has been remedied. Satisfactory progress has been made on the drainage in Fifth ward. Trash cans, 36 in number, have been placed in different parts of the city. The committee recommends that more dispatch be made in handling the garbage from the streets by the contractors. Alderman Northrop in this connection said the condition, especially in the suburbs was deplorable. Some one should be responsible for this serious state of affairs. The committee also reiterated its former report, recommending that Health Inspector E. W. Hewlett be dismissed in compliance with the action of the Superintendent of Health. He said that Mr. Kellum, attorney for Mr. Hewlett, had given him notice of an appeal from this decision. Mr. Kellum addressed the Board in behalf of his client at considerable length. Mr. O'Brien favored further investigating the matter. Mr. Wood said he thought Dr. Harper should be heard from as to statements attributed to him by Mr. Kellum. The committee's recommendation was accepted by a vote of 7 to 3, Messrs. King, O'Brien and Wood voting in the negative.

Chairman Ellis also read a petition from five physicians and 42 citizens, protesting against hog pens in the vicinity of the James Walker Memorial Hospital, and asking that the "hog limits" be made the same as the city limits. Mr. O'Brien moved that the limits be extended so as to prevent hogs from south side of Dock street to east side of 14th, thence to Oakdale cemetery, effective on and after September 1st. The motion was unanimously carried.

Alderman Northrop of the special committee on the "Panama Canal" made report that the drainage is now satisfactory. The committee recommended that the City Engineer and Mr. Wood be paid $25 and $5 respectively for extra work in connection with this work. The recommendation was unanimously carried.

Upon recommendation of the Finance Committee, tax on horse dealers erroneously paid by F. T. Mills, was ordered refunded.

The Board then went into an election of a successor to Mr. Hewlett. An application was read from Mr. J. H. Holton, the application being endorsed by Dr. Harper. The vote on the election of Mr. Holton was a tie, Messrs. King, Jewell, Rathjen, Ellis and Wood voting for Mr. Holton and the others against. The Mayor broke the tie by voting against Mr. Holton and the further election of a health officer was gone into. Mr. Ellis moved that Messrs. Moore and Vereen, who are now subbing, be elected to the positions of permanent officers. Some members favored a delay in order that Dr. Harper might be consulted. A substitute by Mr. Rathjen that the matter be left open to next meeting was seconded by Dr. Bolles. The substitute was lost by a vote of 6 to 4, Messrs. French, Bolles, Karr and Rathjen alone voting in the affirmative. Messrs. Moore and Vereen were then

BITTERNESS IN PRIMARY CAMPAIGN.

The Democrats of Anson county have opened their campaign for the primary election and a hot one it is from the beginning. At the first speaking there were bitter personalities indulged in which caused a great deal of excitement and much ill feeling between the friends of the two men who took part in it. At one time, according to the Charlotte Observer's correspondent, it looked as if there would be a personal encounter. This controversy arose between one of the candidates for the State Senate, former chairman of the county executive committee, and the present chairman, the former accusing the latter of taking too prominent a part in aid of his opponent for the nomination.

The feeling between the friends of these two men has grown so intense that after the second meeting the sheriff threatened to put a stop to the canvass of the feeling grows stronger.

We know nothing about the merits of the controversy, and if we did it would be out of place for us to take sides in it. It is no body's business except those immediately concerned which of the parties is in the right and which in the wrong, but it is the business of all good Democrats to deplore such unfortunate occurrences and to do whatever is in their power to put a stop to them, to try to prevent that injury to the party which is bound to come from such manner of conducting a local campaign within the party. It makes no difference, so far as hurtful results are concerned, which party is in the right or which faction comes out victorious. The point is that the whole thing is wrong and makes strength for the Republicans.

Good Democrats should have more regard for the welfare of the party than to bring their personal grievances, whether imaginary or real, into its affairs and try to use it as a means of settling them.

This Anson county affair is deplorable, and, for the sake of the party we hope there will be no more of it. Mutual friends should try to put a stop to it, and if they cannot succeed then the party leaders in the county should demand that the candidates keep personalities out of the discussions.

BETTER TIMES AHEAD.

Below we give an article from the London Statist on the business and financial outlook in this country which is encouraging to those who take it for granted that the Statist knows what it is talking about—that it understands the true situation and the real cause or causes of the depression in this country. In the last paragraph will be noticed the rather peculiar expression, "the balance apparently due the United States." A few lines above this expression the paper refers to "the exceptionally large trade balance in favor of the United States." The Statist says;

"Signs are accumulating that the great depression of the last few months is becoming less marked and that before many months pass by there will be pronounced recovery. A bountiful harvest will do much to bring trade back to its normal volume, and other powerful forces are working toward greater activity.

"The expenditures of capital upon new buildings, upon the construction of railways and of railway equipment, upon municipal improvements and upon the extension and equipment of factories and mills have been greatly curtailed, and the supply of capital is rapidly overtaking the demand.

"It is true that the issues of new capital are still considerable, but these are mainly for the purpose of funding the great activity of last year. In a short time the supply of capital will greatly exceed the demand, and difficulty will arise in finding employment for the surplus. An abundant supply of capital plus confidence are the greatest of all forces making for trade expansion.

"Again, the reduced consumption of the American people in the last few months has caused great shrinkage in the imports into the country; at the same time, their desire to obtain as much cash as possible has stimulated them to export their products freely. Hence the balance of trade with other countries has become very favorable to the United States. This favorable trade balance has been increased, first, by gold exports, and, second, by the sale of considerable amounts of American securities in the European markets.

"How far the exceptionally large trade balance in favor of the United States is being used to redeem indebtedness previously incurred and for the remittances of the savings of emigrants returning to Europe cannot be ascertained with any degree of exactness. Nevertheless, the balance apparently due to the United States is so large that America will be able to withdraw from Europe a large amount of gold as soon as the state of trade in the United States calls for additional currency or for increased bank reserves."

NEEDLE IN THE FLESH.

There are many records of needles making remarkable journeys through the limbs and bodies of human beings. Once a needle or the pointed end of one gets under the skin it begins to travel, and there is no telling where or when it will come to the surface.

The death, from this cause, of a young lady in Warsaw, Ind., has just occurred. Her symptoms just before her death, which was quite sudden, were so peculiar that a post mortem examination was made. It showed that death was caused by "leakage of the heart," that organ having been punctured by a piece of needle. Frequently in the last few months the young lady had complained of peculiar pains in different locations, first in the hand, then in the arm, then in the shoulder and finally in the breast, the last a short while before her death, thus plainly showing the course of the needle.

When a needle is broken off under the skin the person should keep perfectly still until it can be withdrawn. This often has to be done by making an incision and using tweezers. It takes very little movement of the part affected to cause the little piece of short steel to work its way so far in that it cannot be found, and then it begins its tortuous journey through the limbs and body, causing violent pain as it moves its position, and at times death, as was the sad result in the case above cited.

The Charlotte Observer announces that it has put Mr. C. C. Moore at the head of its circulation department. He will have entire charge of this branch of the business, including agencies. The paper says he will control the department's work, exercise supervision of its, visit the public in its interest, and in a general way be responsible for the conduct of the department. This is a good move on the part of the Observer and shows progress and development, and no better man could have been chosen for the place.

The Charlotte Observer notes as a peculiarity of the political platforms promulgated this year not a single one of them "repudiates with scorn," though some have "pointed with pride and viewed with alarm." Now we want to know how the Observer's editor knows that. Will he say—without crossing his fingers—that he has read all of them carefully enough to know it to be a fact?

CURRENT COMMENT.

"All contributions to the Independence campaign fund will be limited to 23 cents."—Baltimore Sun.

—Mr. Taft's speech, deplorable as it is will not lose him a Republican vote. What a relief it must be to him today to have the fearful thing off his mind, and off his conscience; and how ardently he must look forward to the time when he can say things and do things not because they are to make votes for him but because they are the right things to say and the right things to do! The nauseating incubus beneath which he staggers in nearly every sentence would suffocate any ordinary man.—New York Sun.

—At least the Atlanta Journal is one Georgia paper that does not hesitate to attack Tom Watson because of his recent groundless criticism of Bryan. As will be recalled, Watson, in a public speech recently attempted to turn the South against Bryan by alleging that the Nebraskan was an enemy of the South, citing as proof his alleged failure to vote for Crisp for speaker, who was an ex-Confederate. When the records were looked up it was discovered that Bryan did vote for Crisp, but that Watson, instead of voting for Crisp, voted for himself.—Charlotte News.

—Flats are now cultivated extensively throughout the country. Some varieties are short and scrubby; others grow to an immense height. Almost every flat has a spinal column running up and down its centre. This is the elevator shaft, and consists of hot air. When a flat is more costly than people can afford to live in, it is called an apartment. A a flat in its primitive state consists of a small bath-room, almost completely surrounded by total darkness. A flat is a substitute for home, at one time a popular winter and summer resort, where traditions were allowed to grow up carelessly. Now in every well-conducted flat the traditions are drawn out every morning through a tube by the pneumatic cleaning process. Babies happen occasionally, even in the best regulated flats. Thus we see that nature, even under modern surveillance sometimes nods. Flats are constantly growing in size and importance. It is estimated that very soon they will hold all the people in the world, who will then come to depend entirely upon our fertile roof gardens for their means of sustenance. Flats have an awful mean temperature of two degrees below zero in winter and ninety-two degrees above zero in summer. When all the trees have been made into flats, it is thought the millennium will have arrived. Every flat has the word "Welcome" over the kitchen door. Also many of them this motto. "All ye who enter here leave soap behind."—Success Magazine.

—July 24th this Associated Press dispatch was sent out from Lincoln, Neb.: "Yesterday was Bryan's busy day. It was also his joyful day. The business was greeting a steady line of pilgrims. The joyfulness was incident upon the arrival of Lincoln negroes, heretofore staunch Republicans, who marched out to Fairview to pledge their support to the Democratic ticket. The visiting negroes carried a banner labeling its followers as members of the Negro Bryan and Kern Club of Lincoln. While Mr. Bryan was giving them a hearty welcome and urging them to keep in touch with the colored brethren throughout the country, somebody in the house was frying chicken. A picnic lunch was served to the visitors on the lawn." Hon. Thos. E. Watson's paper, The Jeffersonian, prints this dispatch and accompanies it with a full first-page cartoon labeled "Pink Tea and Fried Chicken Social at Fairview," which caricatures Mr. Bryan attired as a cafe waiter, smiling expansively and obsequiously passing a lunch basket around to a squad of thick-lipped negroes squatted on the ground. It is not true that everything is fair in love and war and politics. This cartoon is an oturageous libel, not justified by a word in the dispatch which is printed along with it, and deserves to arouse the indignation of every honest-minded man, no matter what he may think of Mr. Bryan or of his attitude toward the negro vote in the present campaign. As a man is often hurt by his fool friends so is he often helped by his fool enemies and this is likely to be a case like that.—Charlotte Observer.

TWINKLINGS.

—"They've got the prettiest thing in hammocks next door that I ever saw." "How old is she?"—Houston Post.

—"When a woman packs her trunk she puts her soul into it." "And when a man packs a trunk he puts his feet into it."—Cleveland Plain Dealer.

—Sillicus—What do you consider is the proper time for a man to marry? Cynicus—Oh, I suppose when he hasn't anything else to worry him.—Philadelphia Record.

—Tired Tatters—I wish I had money enuff t' patent a idee uv mine. Weary Walker—Wot's de idee? Tired Tatters—A noomatic tire fer perlice clubs.—Chicago News.

—Conductor—This here transfer expired an hour ago. The lady (digging her fingers in her purse,snappishly)—No wonder, with not a single ventilator open in the whole car!—Puck.

—"Some people have queer ideas of sentiment." "For example?" "I know a man who treasures the slipper his mother used to spank him with."—Birmingham Age-Herald.

—He was having some words with her chaperon. "I'll—I'll kiss her her right under your nose," he said defiantly. "Oh, well," said that lady, "vicarious kissing like that I can see no objection to."—Boston Transcript.

—"I understand," said the old-time friend, "that you are gettin' right exclusive." "Well," answered Mr. Cumrox, "that's what mother an 'the girls call it.' "What do you call it?" "Plain lonesome."—Washington Star.

—"Does your husband play poker?" "I don't know. When he comes home broke I always feel that it is necessary for him to sit down and think undisturged, and when he seems to be flush I consider it foolish to ask embarrassing questions."—Chicago Record-Herald.

NATURE AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

LAND ENTRY NO. 9117.

I hereby enter and lay claim to the following vacant and unappropriated land in Masonboro township in the county of New Hanover, lying in the Marsh of Masonboro Sound, on the South side of the main channel and beginning at the mouth of Jennette Creek and running thence southwestwardly with the main channel of the sound about 450 yards to the mouth of Shell Bed Creek; thence southwardly with the run of said creek about 30 yards to a stake; thence a northeastwardly course to the mouth of a cut where Clams Creek empties into Jennette Creek; thence with Jennette Creek to the beginning, containing (3) three acres, more or less.

This the 23rd day of July, 1908.

W. A. PINER,

Entry filed July 23rd, 1908.

GARRETT IS OPTIMISTIC

Seaboard Air Line President Sees Industrial Triumph in 1910—Discusses Railway and Other Affairs in General.

Norfolk, Va., July 29.—W. A. Garrett, president of the Seaboard Air Line Railway, who today stands high in the affairs of men, but who smiles when he remembers that not many years ago he was a messenger boy in the old St. Louis terminal station, is firm in his conviction that the year 1910 will be the greatest year industrially the country has ever known.

Mr. Garrett knows, too, that America is the land of opportunity and that the transportation interests of this land are anxious to reward industry, honesty and a willingness on the part of young men to render faithful service. He knows this, because he started at the bottom himself and he understands what qualities in him were recognized and elevated him to the executive head of a vast system of railways.

This successful climber believes that the country is safe. A little financial scare may come, followed by wavering confidence, but that the readjustment of the country's business conditions is inevitable Mr. Garrett is certain. He even believes that the ill wind has blown the country good and that a wholesome conservatism will be evolved from the financial turmoil from which the temporary suffering has been felt.

Mr. Garrett was found in the offices of the Seaboard Air Line, in Portsmouth, Va., immediately upon his return from the Louisville Freight Rate Conference, by a correspondent of the Herald. He knew what he wanted to say and said it without urging. His convictions were matured and his sincerity was appealing.

"Undoubtedly there are more chances now than ever before," said Mr. Garrett, "for young men to reach high priced positions in the railway world. Such positions are held open day after day because the railway executives cannot find enough dependable men to fill them. There are more presidents, vice presidents, general managers, general superintendents needed than ever before in the railway service, and with the increasing business which the country is bound to enjoy by 1910 this state of affairs will become even more apparent.

"The lack of supervision is the greatest criticism which may be lodged against the railways of the country today.

"If the officers in charge of the great transportation interests find certain men in the service who demonstrate their fitness for advancement and by their daily work show their desire for advancement promotion is bound to follow.

"I believe that there is a basic sense of fairness in the people of this country. They do not intend to be unfair to the railroad which serves them. They are sometimes misguided, as the railway manager is sometimes unreasonable, but I cannot be persuaded that the people as a whole countenance corporate oppression. A better understanding of each other's interests will place the people and the railroads in a closer relationship.

"For my part, and speaking as an individual, I should prefer, if I were a passenger on a railway train, to pay three or three and a half cents a mile to ride knowing the road I was on was well signalled, safely ballasted and doubled tracked than to pay two cents a mile and be subjected to the hazards of a cheaply operated system.

"I would rather pay a fair freight rate, if I were a shipper and know that my goods would be received and delivered promptly than to pay a smaller rate for the movement and be told that cars were short and that I would have to take my chances on getting them. Is that an unreasonable view of the transportation situation?

"Mark my word, 1910 will be the greatest year in the industrial and commercial life of the country. The remainder of this year will show improvement in the conditions, next year will see business grow in volume and 1910 will open the eyes of the world. This is bound to come. Confidence will have been restored, the money which is now being hoarded, through a general distrust of what the morrow may bring, will be poured into investing channels and we shall see a growth in business which will satisfy the fairest hopes.

"You ask me if labor would not gain by a closer co-operation with capital instead of listening to the vaporings of demagogues. This is a question I never discuss. I have my own views and they may or may not be sound. I believe in the individual and in his possibilities for advancement without the aid of organization, but I do not say that organization is not good for labor.

"There are splendid fellows in labor organizations and there are splendid fellows outside them, just as there are good people in the church I belong to and good people who belong to no church. When I am sick I want a doctor, but another man may want a Christian Scientist, and I grant him the right to his choice. The laboring man may seek his advancement through the organization, and whether or not I agree with him as to method, I grant him the right to his choice."

By successive stages Mr. Garrett has worked his way from messenger to his present high rank among the transportation heads of the country. He says that he is Southern born and cherishes the memory of his Mississippi home, but that he is not a Southerner, but an American. Neither the North nor the South, the East nor the West has a monopoly on the wealth, the brains, the manhood or the faults of the country, concluded Mr. Garrett.

Dr. Worthington's Southern Remedy Kills Pain. Used over 60 years. Price 25 cents. Guaranteed by all dealers.

Largest and Most Complete Whiskey House in The South

All Goods Guaranteed Under The National Pure Food Law, Serial Number 3549.

¶ Do anything you want it to do, and at such little expense to yourself that you will wonder at the comparison between cost and results.

POLITICAL REFUGEES.

Efforts to Brighten Under Extradition Agreement With Mexico.

Washington, Aug. 2.—Inability to extradite offenders for so-called political offenses, but which, in the opinion of the administration, are really crimes that should be extraditable, is proving a source of great irritation in the effort which the Government of the United States is making to break up revolutionary activity along the Mexican-Texas boundary. This, coupled with the difficulty in detecting and proving violations of the neutrality laws, makes is difficult to convince the Mexicans of the sincerity of this Government in its expressed determination to punish the guilty and this, notwithstanding every possible bit of machinery at the disposal of the Government is working to a common end. On his recent trip to Oyster Bay Ambassador Creel talked over the subject of the border trouble with President Roosevelt who manifested a lively interest and who is determined to put an end to the mischief making as far as lies in the Government's power.

The President, it is understood, if necessary, will employ special counsel who may apply themselves to the question of netrality violations and extradition so that the law may be fully enforced. Officials contend there is no reason why persons on this side of the border who foment revolutionary movements and cross into Mexico to engage in raids and other operations of a criminal character and then seek safety from arrest in this country, should have any exemption from extradition on the alleged ground that their acts were political. On the contrary the official view is that they should be extradited as felons. Both the United States and the Mexican governments, it was officially said today, are fully aroused in this matter and that the former will take drastic steps to end this species of pernicious activity so far as it is indident to United States soil.

OF CONDITION AT VENEZUELA.

Governor of Curacao Denied Bitterness of Feeling.

(By Cable to the Morning Star.)

The Hague, July 30.—The bitterness of the feeling at Willemstad and Curacao against Venezuela is denied in a dispatch from the Governor of Curacao today which announces that a vessel chartered by President Castro's brother and laden with sugar, which arrived at Willemstad yesterday was obliged to leave that port without disposing of its cargo. The merchants whose trade has been injured by President Castro's orders regarding the trans-shipment of merchandise at Willemstad refuse absolutely to purchase the sugar in question.

Malaria Causes Loss of Appetite.

PERSONAL PARAGRAPHS.

—Miss Letitia Aman will leave for Asheville this afternoon where she will spend some time on her vacation.

—Mrs. W. O. Lockamy left yesterday morning for Charleston, S. C., and the Isle of Palms for a visit of a few weeks.

—Charlotte Observer: "Mrs. Thos. C. James, of Wilmington, who has many friends in the city, is the guest of Captain and Mrs. Thos. H. Haughton, on East Eleventh street."

—Charleston Post: "Misses Lula Brandt and Gusse Schultz are in Wilmington, N. C., guests of their friend, Mrs. Charles Wessell, and will be away from home for several weeks."

—Mr. J. W. Freeman has just returned from a visit of some time to Hendersonville, N. C. Other members of the Wilmington party are still at Hendersonville and are enjoying their stay greatly.

—The Star had a very pleasant call yesterday evening from Mr. W. K. Bethune, city editor and business manager of the Lumberton Robesonian. He is down on a business trip and leaves this morning for Fayetteville.

LOCAL DOTS.

—Joe Turner, colored, who was arrested Saturday afternoon on the charge of disorderly conduct, when he made incendiary remarks following the trial of John Moseley in Justice Bornemann's court, was yesterday given a trial before the latter and fined $5 and the costs.

—At a meeting of the membership committee of the Y. M. C. A. last night it was reported as the result of the special effort during July 32 new names were enrolled, 19 of whom were members paid in advance. The committee will give an outing and supper at the beach on the evening of August 13th. Members are requested to leave their names at office of the secretary.

—While the reduction is not quite so great as 95 per cent. off on Panama Hats, as it appeared in J. M. Solky & Co.'s advertisement in Sunday's paper, the genuine Panamas are going at very great reductions at this popular store. Any hat in the store may be purchased at 25 per cent off and there are some remarkable values in the lot at that.

—Saturday night between 8 and 9 o'clock a sneak thief entered the rear of Mr. C. Mattingly's residence at 418 North Third street and from the refrigerator and a bag on the lid of the same provided himself instead of the family of Mr. Mattingly with an excellent Sunday dinner which included three dressed chickens and four dozen eggs. A negro acquainted with the premises and who had been doing some work about the house is evidently responsible for the theft, though no arrests have been made.

The Police Court Yesterday.

At the session of the police court yesterday, Hamer Blocker, colored, and Thomas Morgan, a white man, were tried for vagrancy. The first named was sent to the county roads for thirty days and the latter who is a crippled tramp, was sent to the county farm. Caroline Jones, for being drunk and disorderly Saturday night was also given thirty days at the farm. A number of other defendants were tried for small offences and in all some fourteen cases were disposed of. On the charge of being implicated in the theft of $15 from Mason's store, on corner of Seventh and Chesnut streets, James Green, colored, was arrested yesterday by Officer R. L. Rouse, at the corner of Front and Dock. He was placed in custody to await trial today in the police court.

Killed Mammoth Rattlers.

While on his way over to the Almont factory of the Virginia-Carolina Chemical Company of which he is superintendent, Sunday afternoon, Mr. B. P. Strickland killed two large rattlesnakes on the railroad track near the factory, one of the reptiles measuring five feet, six inches in length and three inches in diameter with 14 rattles, and the other measuring three feet, nine inches in length. The rattlers had doubtless been run to the highland by the floods in the low grounds and one of them was in the act of striking when killed by Mr. Strickland, whose only weapon was a four-foot stick.

Died at Folkstone, N. C.

Friends and relatives yesterday received with sorrow the news of the death of Mrs. Mary E. Capps, wife of Mr. C. A. Capps, of Folkstone, Onslow county, which occurred at the family home, aged 62 years. The husband and two sons survive, Mr. W. C. Capps, of this city, and Mr. M. M. Capps, clerk of the Superior Court of Onslow county.

ANOTHER BOND ISSUE

(Continued from first page.)

day Superior Court was suspended for the prohibition election.

It was ordered upon suggestion of the grand jury at the present term of court that New Hanover's representative in the next Legislature be requested to secure the passage of a law regulating the speed of automobiles in this county. The Board adjourned to meet again next Monday.

The Board received a communication from Mrs. Andrew Howell, Mrs. W. H. Chadbourn and Mrs. J. G. Barentine, composing the Civic Committee of the North Carolina Sorosis, presenting the necessity for more public drinking fountains and for a better arrangement of those already in use. The petition asked that the three fountains now on Campbell, near Fourth street, on Fifth and Castle and on Dock street, be so improved that a lower receptacle for the benefit of dogs be added to each one; that an indestructible receptacle be placed under the drippings of the City Hall pump for the benefit of smaller animals, unless the arrangement existing there is considered entirely satisfactory; that several new fountains be erected, 10th and market, some point in "Brooklyn" and on North Water street, near the railroad being suggested as locations. If there is any assistance needed, Sorosis would be glad to render it in this matter, which is an important one. The matter was referred to the Streets and Wharves Committee of which Mr. French is acting chairman.

Department Reports.

The usual reports of Departments were read and approved. The Fire Department responded to eight alarms during July, covering a distance of 81 blocks, the amount of fire loss not exceeding $1,500.

The Superintendent of Health reported 49 deaths during July, 14 white and 35 colored; 50 births, 13 white and 37 colored; 5,192 inspections, 2,380 orders issued for disinfectants and seven fumigations performed. Two cases of diphtheria were quarantined. Only ten cases of typhoid fever were reported during the month. It is reported that the sanitary condition of Front street market is at times anything but that it should be and it is recommended to the Market Committee that additional help for that place be employed. The streets are in fair condition, there being less organic matter in the streets than usual at this time of the year, yet there is much trash which should be removed. The analysis of the City Hall pump water is satisfactory as is the city hydrant water.

The Chief of Police reported 147 arrests during July, 44 white and 103 colored, of which number 17 were sent to Superior Court, nine to the county roads and 10 to the farm. During the month $224.20 was turned over to the city treasury from the Mayor's court and $88.68 was turned over to the county treasury.

The City Clerk and Treasurer reported a balance of $19,786.34 from June account, collections $21,214.54, a total of $41,000.85. The disbursements were $15,565.52, leaving a balance of $25,435.33 August 1st.

DEATH OF MISS SEIMONDS.

Aged Lady Passed Away at Home of Her Sister Sunday Night.

The death of Miss Leiba Seimonds, which occurred shortly before 12 o'clock Sunday night was learned with the deepest sorrow by her many Wilmington friends and those elsewhere. She passed away at the home of her sister, Mrs. John Taylor, 414 Dock street, where she has made her home for many years, having been a resident of this city for over forty years. Mrs. Seimonds has been in declining health for some time and her death did not come unexpectedly.

Attended by a large concourse of sympathizing friends, the funeral of Miss Seimonds was conducted from the home of her sister, Mrs. John Taylor, yesterday afternoon at 5 o'clock, Rabbi S. Mendelsohn officiating. At the conclusion of the services the remains were conveyed to Oakdale, where they were interred. The pall-bearers were, honorary, Drs. W. D. McMillan and T. S. Burbank; active, Messrs. A. Shrier, J. M. Solky, M. W. Jacobi, A. G. Dannebaum, A. David and Sol Sternberger.

Surviving the deceased lady are a large number of relatives, leaving besides her sister, several nieces and nephews in this city.

THE SEMINOLE IN PORT.

Returned to Her Station Sunday Evening—Rode Out Storm at Sea.

After being absent from her station here since June 19th when she proceeded north to act as patrol during the Harvard-Yale boat races, later returning to Beaufort to render her services in connection with the silver service presentation to the cruiser North Carolina, later going to Newport News for slight overhauling, the United State Revenue Cutter Seminole, in command of Lieut. Camden, arrived in port Sunday evening at 6 o'clock from Charleston, S. C., to which point she ran in the teeth of the gale that swept the coast last week to the assistance of the schooner Jose Olaverri, previously reported ashore on Bull's Breakers, near Charleston. The cutter rode out the storm beautifully but was unable to render any assistance to the schooner at Charleston which had been pounding since July 24th and finally broke in two. Lieut. Camden, officers and crew were delighted to get back on their station again and Wilmington was delighted to receive them. The Seminole prepared to leave for Lookout yesterday afternoon, but later advices came that her services would not be needed as the private tugs had the siutation well in hand.

Centerfielder Jayes Brought Home.

Centerfielder Jayes, of the Wilmington baseball team, was brought home from Wilson Sunday evening by Pitcher Bussey and is now under the care of a physician at their boarding house on North Third street. The clever little player was not so well yesterday but is being given the very best of attention.

A LENGTHY SESSION

(Continued from first page.)

unanimously elected.

Chairman Rathjen, of the Market Committee, read the specifications for the repairs and improvements to Front and Fourth street market house, proposals for which are already advertised. The committee was authorized to proceed with the work.

Chairman Northrop, of the Light Committee, reported some trouble with lights, but with Mr. Williamson in charge, better things are now expected.

Chairman French, of the Streets and Wharves Committee, recommended that the contract for repairs to Fourth and Fifth street bridges be awarded to the lowest bidders, Revill & Simmons, at $268 and it was so awarded. Contract for painting Fifth Street bridge was awarded to D. J. Joyner, for $214. Mr. French called attention to the poor condition of the wharves of the city and the impossibility of operating fire engines on them, especially the new and heavier engine expected soon for this very work. Mr. O'Brien thought it would take $10,000 to put this public property in condition. Mr. O'Brien explained that many of these wharves were leased to private parties and these should be made to repair and pay the rent or else give them up. Upon motion of Mr. Northrop, these matters were placed in the hands of the City Attorney to instruct the City Clerk and Treasurer what action to take.

Chairman Wood, of the Water Committee, reported the installation of the hydrant at 17th and Market streets. He also reported that the Clarendon Water Works Co., was looking to the Standard Oil Co., for rents on the hydrant at Second and Brunswick streets. The matter was continued with the committee, it being generally understood that the matter is one between the Standard Oil Co., and the Water Works Co. Chairman Wood asked for the sinking of a public well at Front and Chesnut street. The committee was authorized to sink the well out of the existing appropriation.

Chairman French, of the Fire Committee, made report of the Department, the apparatus having been called out to drive martins from the treetops on North Front street.

An application from Mr. J. H. Holton for license to do scavenger work was read and, at the request of Alderman Ellis the ordinance was read, requiring all licenses to be approved by the Superintendent of Health. Mr. Ellis said he understood that the endorsement of the Superintendent had been denied by Dr. Harper. Mr. Ellis asked if Dr. Harper was not financing a scavenger business, but no one could vouchsafe the information. Mr. Wood asked for a further inquiry as to whether the superintendent was interested in this business. Mr. King made a motion that the ordinance be so amended striking out that portion of the ordinance requiring all applications to be endorsed by the Superintendent of Health. The matter was discussed at length. The point was raised that any amendment to the regulations would have to go over except by unanimous consent. No one objected to the work being done entirely under the supervision of the superintendent of health, but it was the opinion that no proper person should be debarred from engaging in the business. Mr. Jewell made a motion that the Board grant license to Mr. Holton subject to the approval of the Superintendent of Health; seconded by Dr. Bolles and carried unanimously.

The transfer of the old Hook and Ladder property from Mr. McClammy to the trustees of the Christian Church was unanimously approved after which the Board at 11:10 adjourned.

Attempt to Wreck a Train.

Passenger Train No. 44, in charge of Conductor W. L. Beery and Engineer J. H. Jordan and bound to Wilmington from Hamlet Sunday night, ran into an open switch one mile south of Maxton and all on board had a narrow escape from serious injury. Two freight cars on the siding were smashed and the engine and baggage car of the passenger train were badly damaged. It is thought some one with a deliberate attempt to wreck the train broke the lock and threw the switch. Railroad detectives are investigating the case.

Funeral of George Harriss.

Many sympathizing friends attended the last sad rites over the remains of Mastef George Harriss, Jr., the son of Mr. and Mrs. George Harriss, whose death occurred Saturday after a lingering illness from typhoid fever. The services were conducted from the home by Rev. J. M. Plowden and the remains were interred in Oakdale cemetery. The funeral tributes sent by the many friends of the parents were beautiful and costly. The pallbearers were Messrs. David Murchison, Chesley Bellamy, Walter Stokley, Barclay Loder and George Carmichael.

The Two Men Selected.

As the result of a competitive shoot of members of the W. L. I. at Wrightsville Beach, completed yesterday afternoon, Captain Robertson has designated Sergeant P. L. Cantwell and Private Stokley to represent the company at the practice shoot this week at Camp Glenn where a team will be made up to represent the North Carolina Guard at the National shoot at Camp Perry, Ohio. The men will leave tonight for Morehead to represent the company.

Advertising Makes Business Hum

A MILLION DOLLAR FIRE

Chicago's Great Loss—Two Grain Elevators, Railway Warehouse and 100 Cars Burned—Heat Too Intense for Firemen.

(By Wire to the Morning Star)

Chicago, Aug. 3.—Fire, which was so hot that the firemen could not get nearer than a block of it, and which made it necessary to play streams of water on buildings three and four squares away, this afternoon destroyed the Burlington elevators E. and F., the dock transfer warehouse of that road and either burned or rendered useless 100 box cars. The loss on the grain in the two elevators is placed by Armour & Company, who owned it, at $700,000. The total loss is placed at $1,000,000.

The fire started at 1 P. M., in the Burlington warehouse, supposedly from a cigarette dropped near several barrels containing chemicals. At the first explosion the 250 men employed in the warehouse and elevators fled and it is believed all escaped.

Eighty fire engine companies and three fire tugs had all they could do to confine the conflagration to its original limits.

DAMAGE TO SHIPPING

Number of Reports Began to Reach Here Yesterday—Sea King.

Following the fearful storm which swept the coast last Thursday, many reports of shipping in distress began to reach the city Sunday and yesterday. The tug Sea King, Captain E. D. Williams, which left port Saturday night in response to a call for assistance from Cape Lookout, arrived at Southport last night with the Russian barquentine Mats, of Riga, in tow. She has valuable cargo of mahogany from Mexico to Havre, France, and during the storm drifted across Lookout shoals, but after jettisoning part of her deck load, was floated and the Sea King rendered assistance, towing her into Southport last night. She is waterlogged and part of her sails were carried away. The Sea King also had in tow from Lookout the schooner Horace P. Shares, Captain Flynn, from New York to Fort Caswell N. C., with cargo of cement and crushed stone. The Shares was entirely dismantled and her cargo is badly damaged though the vessel is not leaking. While being towed down the schooner broke loose from the tug three times, after which she was anchored by Captain Williams and the tug Blanche dispatched to tow her into Southport today.

While at Lookout Bight the Sea King spoke and offered assistance to the schooner Jos. W. Hawthorne, laden with guano for Bruswick, Ga., and the barquentine John Swann, Jacksonville to New York with cargo of lumber, but offers of assistance were declined. The Hawthorne has sails badly torn but after repairing in Lookout Bight, she will proceed. The Swann has 14 feet of water in her hold and fore and main top gone. While attempting to lower a small boat during the storm the second mate of the Swann was lost overboard.

The Brunswick freight steamer Ocmulgee, Captain Webb, from New York to Brunswick, arrived in at Southport yesterday morning towing the schooner Chas. R. Schull, Captain Peckworth, with coal from Philadelphia to Charleston. The schooner's foretopmast and flying jibbooms were carried away and sails shredded. The captain and crew of seven were rescued by the steamer Kansas City bound to New York, the rescue being reported by wireless on Sunday.

SCORED GREATEST SUCCESS

Jack-o-Lantern Dance at Lumina the Hit of Season—Big Crowds.

Quite everyone—and they were many—agree that the Jack-o-Lantern dance last night at Lumina was the greatest hit of the season at Wrightsville Beach. An elaborate scheme of decoration had been carried out and the floor and broad verandas of the attractive pavilion were lined with dancers and spectators, many of those in attendance being the most elite of Wilmington and State society.

The souvenirs were pumpkin lanterns while fantastic pumpkin heads brilliantly lighted from within lent attractiveness to the walls and ceiling of the dance room. Then there were witch, red devil and skull heads, all carrying out the Jack-o-Lantern idea while in the wide, old-fashioned, open fire place a feature scheme was carried out. A spider's web with a big spider in the centre encircled the fire place from without while just within seated by a big kettle was a witch with illuminated head and the proverbial cat seated at her feet. Ever and anon red fire burned on the hearthstone and one could imagine the "cauldron bubble" from the weird and picturesque scene. The Tidewater Power Company, is deserving of the highest praise for the great time and expense which must necessarily be expended to make of these special dances the magnificent success of that so appropriately named last night.

Are Your Kidneys Well?

Bright's Disease, Diabetes, Rheumatism, Gout, Gravel, Dropsy, Inflammation of the Bladder, Bad Blood and Nervous Troubles caused by Sick Kidneys.

J. Frank Jarman, the well known Druggist of 107 Princess street, Wilmington, N. C., knows by experience that HINDIPO will cure all forms of Kidney and Nervous Troubles, and will guarantee it in all cases.

Can't you afford to try it at their risk? It costs you nothing if it don't do the work.

Sent by mail to any address, prepaid, on receipt of 50 cents. Six boxes, $2.50. Under a positive guarantee.

WARM WIRELETS.

The American steamer May which arrived at Port Tampa from New York reports that Captain Ernest Renshaw died on the voyage of dysentery and was buried at sea.

A large crowd that gathered at Fort Myer, near Washington yesterday to witness the first preliminary flight of Captain Thomas S. Baldwin's military dirigible balloon, met with a disappointment. The balloon was taken to the parade ground, but it did not fly.

Saturday, August 29th is the date named by the committee for the reception of the returning American athletes who participated in the Olympic games in London. President Roosevelt will be chairman of the reception committee of 500 prominent citizens.

Two Americans and an Italian, all of Hazelton, Pa., were instantly killed by the premature explosion of a blast at the stone crushing plant of Chas. Kehoe, on the outskirts of Hazelton yesterday. Thomas Kehoe, a son of the contractor, was injured about the head.

Notices were posted today at the mills of the United States Cotton company at Central Falls, R. I., that one week from yesterday a reduction of wages will go into effect. The rate of reduction was not mentioned but it is undertood by the operatives to be a ten per cent. one. The company employs 500 hands.

Three persons were killed and three injured in an automobile accident afternoon near Burlinggame, twenty miles South of San Francisco. The dead: Mrs. T. A. McCormick; Miss Clara McCormick, aged 18; infant son of Ira D. O'Brien; injured: Mrs. Ira D. O'Brien, Ira D. O'Brien, Jr., aged 3 years. Miss Ethel McCormick.

Jas. T. Anderson, of Marietta, Ga., was appointed yesterday receiver for the Georgia Manufacturing and Public Service Company, a half million dollar corporation with supplies the city of Marietta with electric light and water. The appointment was made on an involuntary petition in bankruptcy filed by Atlanta creditors.

"If the legislative committee now probing the convict lease system does not complete its labor in time for a thorough and exhaustive report to be made at this session and acted upon before adjournment on August 12, I will call the legislature in extra session to dispose of the whole matter," said Governor Smith, of Georgia, today.

Two men were killed and three probably fatally injured in an explosion yesterday at the Knickerbocker Colliery of the Philadelphia & Reading Coal and Iron Company, about one mile east of Shenandoah, Pa. The accident was caused by an inrush of gas in the gangway of the Buck Mountain vein which was ignited while the miners were blasting.

Wililam J. Conners, chairman of the Democratic State Committee, came to New York yesterday to confer with Charles F. Murphy about the political situation in Brooklyn. They are also to fix a time and place for the State convention and to call a meeting of the State Committee. Norman E. Mack is expected today. He will be at the Hoffman house and may have conferences with prominent New York Democrats. It is understood that Eastern National headquarters will be established at the Hoffman House.

Leading members of the Syrian colony in New York yesterday started a movement to present Turkey with a modern battleship. The money to build the vessel is to be raised among all the Syrians in the new world, their number being estimated at upwards of 200,000, and the gift not only is to commemorate the granting of a constitution to the people of Turkey but also to express the confidence felt by the Syrians and young Turks in this hemisphere in the genuineness of the reforms.

Suffered Painful Accident.

Friends of Miss Elise Ortmann will regret to learn of a very severe accident which befel her last night at Lumina during the progress of the dance. While she was on the floor a party of children in frolicking on the floor, ran into her and she was thrown with such violence that she suffered a painful sprain of the knee cap. She was attended by Drs. J. H. Bornemann and J. C. Wessell and later brought up to her home in the city, where her many friends hope that her improvement will be rapid.

—Laurens, S. C., Aug. 1.—J. Louis Williamson, a prominent young farmer of York county and the son of J. L. Williamson, of the same county, was shot and mortally wounded last night by J. Henry Garrison, the shooting occurring at the Garrison home at Gray Court, a little town ten miles west of Laurens. Young Williamson lived three hours after the shooting, being conscious for some time and realizing that he could not recover. It seems that young Williamson was a visitor at the Garrison home as the guest of Miss Mary Garrison, the accomplished daughter of Mr. J. H. Garrison. Last evening Miss Garrison and her visitor were alone in the family parlor. About 11 o'clock it appears Mr. Garrison went on the piazza for water. Observing the young people he concluded from appearances that the young man was not acting as he should and fired upon him with a shotgun. An inquest was held this afternoon and a verdict in accordance with the above facts was returned. Garrison came down and surrendered to the sheriff this morning.

A Grand Family Medicine.

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 436 Houston St., New York. "It's a grand family medicine for dyspepsia and liver complications; while for lame back and weak kidneys it cannot be too highly recommended." Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. Sold under guarantee at R. R. Bellamy's drug store. 50c.

EX-GOVERNOR DEAD.

California Mourns Death of James H. Budd.

(By Wire to the Morning Star.)

Stockton, Cal., July 30.—James H. Budd, former Governor of California, and long prominent in Democratic politics, died at his home in this city today after an illness of a fortnight of ruaemic, aged 58 years. He was born in Janesville, Wis., in 1851, and came to California in his boyhood. Elected to Congress, he served from 1883 to 1885, but declined a re-nomination. He was the Governor of California from 1894 to 1898.

—It was just as The Chronicle said. The storm scare at Wrightsville Peach was confined to the visitors. The residenters, far from being alarmed, rather enjoyed it. The howling of the wind and the roar of the surf combined with the high-dashed spray, frightened the visitors, and when the lights were put out by the breaking of the wires, throwing the beach into darkness which was shattered intermittently by vivid lightning, terror took possession of them and the stampede could not be stopped. Under these circumstances, the storm seemed more terrible than it really was. The truth is, that in case of a storm at Wrightsville, there is no need to make a break for the main land. It would be only necessary to seek the shelter of the trees on the hammocks. There, in the hardest storm, one would undergo no worse experience than a combined surf and shower bath—and that is what they go to the seashore for, anyway. Wrightsville Beach is safer than some resorts along the Atlantic coast, and as safe as the safest.—Charlotte Chronicle.

Was Entitled to Trouble.

Lord Palmerston and Sir J. Paget, who told the story, were walking down Bond street. A man came up and saluted the statesman.

"How do you do, Lord Palmerston?"

"Ah, how do? Glad to see you. How's the old complaint?"

The stranger's face clouded over, and he shook his head. "No better."

"Dear me! So sorry! Glad to have met you. Goodby."

"Who's your friend?" asked Sir James when the stranger had gone.

"No idea."

"Why, you asked him about his old complaint."

"Pooh, pooh!" replied the other unconcernedly. "The old fellow's well over sixty; bound to have something the matter with him."—London Globe.

The Archbishop Won.

Dr. Whately, some time archbishop of Dublin, once had an encounter with a young aid-de-camp, and the primate emerged victor. At dinner the soldier asked this singular question, "Does your grace know the difference between an archbishop and an ass?" "Sir, I do not," answered Dr. Whately. "One wears the cross on his miter and the other wears it on his back!" explained the tactless officer. "Do you know the difference between an aid-de-camp and an ass?" asked the archbishop calmly in return. "No, your grace, I do not," was the reply. "Neither do I!" said his grace.—Liverpool Mercury.

Greeley's Writing.

During the early part of the nineteenth century the bad writing of great men became almost a byword. In fact, poor writing was considered by some people as almost a sign of genius. Horace Greeley was such a poor writer that his correspondents were sometimes obliged to guess at his meaning. It is related that a reporter on the New York Tribune who received a letter from Greeley discharging him presented it as a letter of recommendation to the editor of another paper.

Diverging.

Husband—I'm afraid I'm becoming cross eyed, my dear. Wife—The idea! Why do you think that? Husband—This thing of trying to look at my income and our expenses at the same time is slowly but surely getting its work in.—Chicago News.

THEY NEVER FAIL.

That is What They Say About Them in Wilmington, and It is Therefore, Reliable.

Another proof, more evidence, Wilmington testimony to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of that remarkable preparation:

Mrs. L. F. Rivenbark, 517 S. Third St., Wilmington, N. C., says: "Dull nagging backaches and severe pains in the region of my kidneys caused me considerable amount of trouble. I could not rest at night and in the morning when arising felt tired and languid and with no strength or ambition. The kidney secretions were highly colored and deposited a sediment from which symptom I decided that my kidneys were out of order. When I read of Doan's Kidney Pills, I bought a box from Robert R. Bellamy's drug store and they gave me relief almost immediately. Since then the backache has never bothered me and the kidneys have acted regularly. My husband has also used Doan's Kidney Pills for backache and they were of just as much benefit to him."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's and take no other.

The Best Pills Ever Sold.

"After doctoring 15 years for chronic indigestion, and spending over two hundred dollars, nothing has done me as much good as Dr. King's New Life Pills. I consider them the best pills ever sold." writes B. F. Ayscue, of Ingleside, N. C. Sold under guarantee at R. R. Bellamy's drug store. 25c.

SPIRITS TURPENTINE

—Greensboro, Aug. 1.—As counsel for J. K. Osborne Cololonel John A. Barringer today instituted suit in the Guilford Superior Court against the Southern Railway for $30,000 for injuries his client is alleged to have received while in the service of the railroad.

—Goldsboro Argus: At a meeting of the Board of Directors of the Bank of Wayne, held Friday, July 31, '08, a semi-annual dividend of 5 per cent. was declared on the capital stock, payable on and after August 5th, besides passing a goodly sum to the already large surplus and undivided profits.

—Greensboro, Aug. 2.—Mr. E. J. Justice, who represented Guilford in the House at the last session and was elected Speaker, will not seek a renomination. His colleague, Dr. J. R. Gordon, of Jamestown, would accept another nomination, but it is understood that he will not make a fight for it.

—Fayetteville Observer: During a fight yesterday afternoon between George Walker and Amos Robinson, the latter had a large section of his under lip bit off and both men were badly bruised up and when Robinson finally gave up the fight and fled he was covered with blood from head to foot.

—Philadelphia, Aug. 1.—The Reese Tannery Company, of Asheville, N. C., telegraphed today to the Philadelphia Zoological Garden offering to buy the hide of Bolivar, the great elephant which died last night. The request was denied, as the hide and skeleton have been turned over to the Academy of Natural Sciences.

—Newbern Journal: A few farmers were seen in town yesterday and most of these talked to were saddened but not altogether despondent over the situation as left by the great storm. No estimates can be made yet as to the damage done, but considering the bright prospects a few days ago the loss is very discouraging.

—Greenville Reflector: Mr. W. F. Carroll tells us that a colored boy picked up a red fin pike in the road near W. S. Cox's place, Friday. The fish was 3 or 4 inches long and alive when found. The place was up on high land with no way for water to get there, and it is supposed that the fish came down with the rain.

—Charlotte, N. C., Aug. 1.—An operative at the plant of the South Atlantic Waste Company, named Helms, was fatally injured while at work today, his skull being fractured in several places and from one ear the injured man's brain was oozing when he was carried to a hospital. Helms was caught in a belt and thrown with deadly force against the machinery.

—Washington, N. C., Aug. 1.—News was brought to the city yesterday of the drowning of Mrs. J. P. Leary, of Lowland, Pamlico county, near her home a few days ago, by falling in a well. Her husband, it seems, was away at the time of the accident and the unfortunate woman drowned before he returned, there being no other persons near to hear her calls for help.

—News and Observer: All the former deaf and dumb students of the State institutions will hold a reunion in this city on the 20th and 21st of this month. Permission to meet in the buildings of the State School for the Blind in Raleigh was requested of Mr. John E. Ray, principal, and he obtained the consent of the board of directors. There will probably be between 150 and 200 of the old students to attend this the first reunion of the kind in the State.

—Wilkes Patriot: States Alexander, son of ex-County Commissioner W. N. Alexander, was in swimming in a pond near his home with some of his young friends a few days ago, when he underwent a novel experience. There was a whirlpool in the pond caused by a broken plank in the bottom of the dam. Young Alexander swam too near this and he was drawn in and carried on through and out below. When his friends were attempting to save him, they saw him down the creek washing the mud out of his eyes.

Hemlet, Aug. 1.—Tonight about 8 o'clock Policeman Fulton Griffen shot and seriously wounded Sanday Gilchrist, colored. It seems that Sandy was drinking and was using unbecoming language in the store of Mr. C. L. Keel and had stolen a sack of flour. Mr. Keel had ordered him out but the negro went out using abusive language and Mr. Keel called for a policeman and Mr. Griffen answered the call. The officer claims that the negro resisted arrest, whereupon he shot him, the ball taking effect in the lower part of the right shoulder and ranging downward passed through the lung and came out under the shoulder blade. It is impossible to say whether or not the negro will die but the wound is of a serious nature and the chances are against him. Mr. Griffen surrendered himself to the authorities and will be held to await developments.

—Clinton, N. C., Aug. 1.—The rain storm that has devastated Eastern Carolina for the past few days was very bad in Sampson. The damage of the wind and rain to the corn and cotton crops in this county alone is variously estimated from fifty to a hundred thousand dollars. All the streams are swollen, telephone and telegraph wires are down. Many bridges are nearly washed away. The sheriff cannot cross the streams to serve his papers for court which begins August 10th. One peculiar incident of the storm is that causing considerable comment here, a sea fowl was blown presumably into the yard of a farmer eight miles from town, Mr. Redman Herring. The bird is web-footed, has a folked tail and white feathers on its breast. It seems to be tame and rather bewildered in its new surroundings.

HOTEL
Connelly Springs, N. C.

Situated on main line of Southern railroad with six trains daily. Sixty-eight miles west of Salisbury, in a picturesque mountain village.

Hotel accomodates 150 guests. Appointments are all first class.

COW PEAS—$1.90@$2.00 per bushel.

WOOL—Free of burr, 15c; burry wool, 10 to 12 1-2c.

THE COTTON MARKET.

(By Wire to The Morning Star.)

New York, Aug. 3.—The cotton market was more active today, the bull leaders showing greater aggressiveness, and the close steady at a decline of 2 points on August, but generally 6 to 11 points higher. Sales were estimated at 425,000 bales.

The market opened steady at a decline of 2 points to an advance of 7 points and shortly after the call the new crop positions worked up to a net gain of 7 to 11 points on Wall street support and a scattering demand from shorts which may have been promoted to some extent by the talk of too much rain in the eastern and central portions of the belt. The liberal estimate for tomorrow's receipts in the Southwest checked the buying movement and during the middle of the morning prices reacted under realizing and liquidation particularly of August was evidently the result of a few additional notices. That position sold ten points net lower, but the later months barely touched the closing figures of last Saturday and during the afternoon the whole list firmed up during the last half hour when local bears made quite a marked attack on the list without, however, securing a reaction of more than 2 or 3 points from the best. Detailed weather reports showed considerable precipitation in the Vicksburg, Mobile and New Orleans sections but otherwise were considered generally favorable, and most of crop news was bearish. Southern spot market officially reported were unchanged to 1-8c lower.

Liverpool will re-open for business tomorrow morning.

Receipts today at the ports were 2,541 bales against 4,763 last week and 1,329 last year; for the week 25,000, against 26,355 bales last week and 7,440 last year. Today's receipts at New Orleans were 126 bales, against 152 bales last year and at Houston 1,056 against 205 last year.

Spot cotton quiet 10 points higher; middling uplands 10.70; do gulf 10.95; sales 13,800 bales.

Month.	Open.	Close.
August	9.90	9.90
September	9.53	9.53
October	9.46	9.53
November	9.22	9.27
December	9.26	9.29
January	9.22	9.25

DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, Aug. 3.—There was a little more snap in the trading in the dry goods jobbing houses during the day, especially on domestic prints, ginghams and some lines of dress goods not affected by the coming auction sale of Wednesday. Many buyers are in the market but as a rule they are operating in small lots. Raw silk is easier. The trade in dress goods in the primary market is held back by the auction sale and the fear that low prices may rule.

NEW YORK STOCK MARKET.

(By Wire to the Morning Star.)

New York, Aug. 3.—Leaders of a stock market movement rely more on a Monday market to show how much response to their leadership has been attracted from the world outside of Wall Street than on any other index. The explanation is found in the proneness of the man of affairs to begin new undertakings with the opening of the week or with the beginning of some similar defined period. Many important commission houses send out forecasts of the prospects that are more detailed and elaborate than the daily information sent out. As a consequence Monday morning often finds an accumulation of orders in commission houses for execution that represent a new phase in the market. It is the effort of the professional operator in stocks to take advantage of these new phases to his profit, previous operations of this class being wholly directed to the possible attraction of this outside interest.

Commission houses today reported so moderate a growth of outside demand that speculative opinion of the market was left confused and unsettled. The first hours transactions and the recession in prices which resulted demonstrated that the pressure of sales to realize was greater than the demand could support. Evidently last week's events had not brought new buying into the market in sufficient volume to give strong digestive power to it. The hesitating and irregular fluctuations of prices was the expression of the confusion of the speculative mind.

The violence of the upturn in the wheat market magnified the influence of the reports of damage to spring wheat in some sections from rust and to estimates by a privte expert affirming current views of the dimension of the crop. Later reactions in the price of wheat afforded some relief from the anxiety caused by these reports.

The general list was heavy and reflected only languid interest. Time loans for five months are now sufficient to carry borrowers over the end of the year and some relaxation was noted in the rate for this period. Money on call, which has been sinking to a ruling rate of one per cent. today loaned at 3-4, falling below one per cent. for the first time.

Bonds were steady. Total sales par values, $3,306,000. United States bonds were unchanged on call. Total sales of stocks today were 574,900 shares.

AN IMPORTANT RATE DECISION

Rendered by The Inter-State Commerce Commission on Freight Question.

EXCESSIVE RATES CHARGED

By Atlantic Coast Line on Florida Fruits and Vegetables Claimed by Growers—Several Classes of Rates Investigated.

(By Wire to the Morning Star.)

Washington, Aug. 3.—In an opinion rendered by Commissioner Prouty, the Inter-State Commerce Commission today found the all-rail rate on oranges and pineapples from points in Floriday to the Florida base points are not unreasonable, but the carload rates on such articles from the base points to the Northeastern cities are unreasonable.

Certain maximum rates were established and ordered to be in force by September 15 next. The rail and water rates on these commodities between such points were not found unreasonable and the commission decided to establish carload rates by rail and water.

The Commission held that the rates on oranges from the Florida base points to territory north of the Ohio river ought not to be higher on the average than from California to said destination points; but said establishment of a blanket rate to that territory is not justified.

The present rail and water rates on vegetables from Florida base points to the Northeastern cities were found to be excessive and lower maximum rates were established and ordered to be put in force. Whether lower car load rats should be established upon vegetables to Eastern markets was left unsettled. The present any-quantity all-rail rates upon vegetables are reasonable, exceping to Boston, and the vegetable rates from Florida to points north of the Ohio river were found reasonable.

The commission decided that the minimum carload weight established for the transportation of strawberries from Starke and Lawtey, Fla., to New York City and to other points at present taking the New York rate, should be reduced from 200 crates per car to 175 crates per car, and the rate should not exceed $1.80 per crate, including refrigeration.

The refrigeration charges on fruits and vegetables from Florida to Northern markets were not found to be excessive.

This decision was rendered in the case of the Florida Fruit & Vegetable Shippers' Protective Association against the Atlantic Coast Line.

SOUTHERN'S FLYER WRECKED.

New Orleans-New York Limited Derailed—Five Postal Clerks Hurt.

Charlotte, N. C., Aug. 2.—Traffic on the Charlotte-Atlanta division of the Southern Railway is completely blocked tonight by the wreck of Train No. 38, the New Orleans-New York limited, north-bound, which came to grief one mile south of Bessemer City at 8:20 o'clock tonight. The tender and one postal car jumped the track and fell down a 30-foot embankment, and one postal car, the club car, the diner and the front trucks of one sleeper left the rails but did not turn over. The locomotive remained on the track. Five postal clerks were more or less seriously injured. They were E. W. Hortt, Thomas McRae, T. L. Dean, T. H. Bowlin, of Atlanta, and C. B. White of Gainesville Ga. No passengers were hurt nor were the engineer and fireman injured. It will be daylight before the tracks are cleared by wrecking trains which have been sent to the scene from Greenville and Spencer. The track was badly torn up. Physicians accompanied the wrecking trains. Train No. 35 has been held here pending developments. The cause of the wreck is unknown.

THE FREIGHT RATE QUESTION

Litigation Over Proposed Increase in Southeast Territory in Statu Quo.

(By Wire to the Morning Star.)

Washington, Aug. 3.—Nothing further was heard by the Inter-State Commerce Commission today in relation to the controversy over freight rates in the southeastern territory, shippers in that section having been given ten days from July 31st in which to file a complaint against a proposed increase of rates and it is expected their complaint will be here in a few days. As the matter now stands the railroads traversing the southeastern territory have been enjoined by Judge Speer, of the Federal Court in Georgia, from applying their increased rates to Georgia; but the Inter-State Commerce Commission having refused to permit the railroads to postpone the application of the increased rates to other States of the southeastern territory until the commission passed upon their reasonableness, the higher rates are being applied to Alabama, Florida, Tennessee and the Carolinas.

Thinks It Saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at R. R. Bellamy's drug store. 50c and $1.00. Trial bottle free.

CAMPAIGN IN NEW YORK IS PLANNED

The Democratic Fight Was Outlined at Important Conference Yesterday

STATE COMMITTEE IN CHARGE

Chairman Mack Makes Statement That aMore Active Fight Will be That a More Active Fight Will be tion—Bryan's Speeches.

(By Wire to the Morning Star.)

New York, Aug. 3.—An important conference to outline a plan of campaign in New York State was held today by Norman E. Mack, chairman of the Democratic National Committee with Charles F. Murphy, leader of Tammany Hall. The conference continued for some time, and it was said that the part which the National Democratic Committee will play in the campaign in this State was determined.

After a conference lasting over two hours Chairman Mack said: "Mr. Murphy and I talked of the situation in the State and what is being done to elect the National ticket. A more active campaign will be made hereafter the State convention. No mention was made of gubernatorial candidates.

"The State committee will direct the campaign in this State as long as everything is satisfactory—and everything has been so far—the National Committee will not interfere.

"Much has been said of Mr. Bryan's speaking campaign.

"It is Mr. Bryan's intention to speak in centres of doubtful States, though he will not make the number of speeches that he made in his former campaigns. As had been announced, he will speak twice in this State, once in Greater New York and once in Buffalo, but I shall try to persude him to speak also at some point in the center of the State. He will not speak in the State until some time after the State convention which I understand will be the latter part of September or the first of October. I believe New York to be a good battleground where the Democracy has a good chance of success."

Senator John W. Daniel, of Virginia; Henry Watterson, and former Senator Pettigrew, of Dakota, had a conference with Mr. Mack today.

Senator Daniel will leave for Europe tomorrow to be away a month attending to his duties as a member of the monetary commission. On his return he said he will take an active part in the campaign. Mr. Watterson is engaged in the formation of his committee of editors throughout the country favorable to Mr. Bryan's candidacy.

Chairman Mack, accompanied by Secretary Urey Woodson, left for Chicago tonight and will not return until after the Bryan notification. On his arrival in that city he will announce the make-up of the sub-committee which will have control of the campaign East of the Alleghenies.

SERIOUS RACIAL CRASH

Sailors of the Navy Attempt to Lynch Several Negroes.

(By Wire to The Morning Star.)

Norfolk, Va., Aug. 3.—There was a serious clash between negroes and United States sailors in Berkley and South Norfolk last night, and but for the timely arrival of the civil authorities, who took charge of three negroes with whom the trouble originated and gave them police protection there might have been loss of life. It is said that the sailors from the St. Helena naval training station, a short distance away, have been taking corn from the farm land of the negroes. One of the negroes fired upon the sailors, but said he did so only to frighten them off. The seamen then drove the negroes with their families into the house on the place and many shots, it is said, were fired into this. The police called upon the naval authorities for aid, and the negroes who were being attacked were finally gotten into the Berkley ward police station. Several hundred sailors assembled and the police hearing threats of lynching hastened the negroes in a special car from Berkley across the river to the central police station in this city, where they still remain. The sailors assembling around the Berkley police station openly threatened attack and the naval authorities had the enlisted men back to their station. to again send aid to disperse and run

PYTHIANS IN BOSTON.

First Day of the Convention—Meeting of Different Orders.

(By Wire to The Morning Star.)

Boston, Mass., Aug. 3.—By train and boat, thousands of Pythians poured into this city today in time to take part in the exercises preliminary to the formal opening of the meeting of the annual 25th convention of the Supreme Lodge, the biennial encampment of the Uniformed Ranks of the Knights of Pythias and the annual convention of the Pythian Sisters.

The chief official action of the convention was the formal dedication late today of Camp Joseph H. Lyon on Franklin field, where a canvas city of 2,500 tents accommodates the greater portion of the large number of guests.

The first business session in connection with Pythian week was the opening session of the biennial convention of the Grand Keepers of Records and Seals Association.

An important meeting of the advisory board of the Pythian Sisters was held during the day.

All arrangements were completed tonight for the big parade of the Uniform Rank tomorrow.

JAMES RIDDLE IS KILLED BY HIS SON

Young Man Makes Statement That The Shots Were Fired in Defense of Family.

TRAGEDY WAS AT COTTON

Father Attempted to Strike Him With a Board, When He Drew Pistol and Shot With Deadly Effect—Surrendered.

(By Wire to the Morning Star.)

Raleigh, N. C., Aug. 3.—Thomas Riddle, a young white man shot and killed his father, James A. Riddle at Cotton, a cotton mill town seven miles south of Fayetteville late Sunday evening, according to a special from the latter place tonight.

Young Riddle approached his father in the presence of others, smoking a cigarette, when the elder remonstrated with him bringing on a quarrel.

The father attempted to strike him with a board when the young man drew a revolver and fired four balls into his father's body, the first causing instant death.

Thomas Riddle immediately surrendered to the police. Coroner Vance McGougan ordered the murderer held without bail. He was taken to Fayetteville late Sunday night and placed in jail.

Today he made a statement for publication in which he claims that his father was under the influence of an intoxicant Sunday afternoon and that occording to a statement made to the prisoner by his mother a short while before the tragedy, James A. Riddle had left the home to secure a pistol with the threat that he would kill the family upon his return. The young man came in contact with his father before the latter's return. The prisoner also says his father had him hemmed in a jam and was about to slay him with the board.

FARMAN'S SUCCESS.

He Made Three Flights in His Airship at Brighton Beach Yesterday.

(By Wire to the Morning Star.)

New York, Aug. 3.—Three successful flights in his aeroplane were made by Henri Farman, the Avialor, at Brighton Beach race course this afternoon beginning at 4:30 o'clock. Each was straight ahead. On his first flight he covered about two-thirds of the distance at a height of never more than six feet. The second flight was a little longer and on the third he traversed the entire distance, about 800 yards. This last time the machine was 20 feet above the ground. The weather was ideal for the exhibitions and the aeroplane skimmed along like a swallow. The spectators, who included several local aeronauts, were most enthusiastic. A novel preliminary to the flights was the loosing of about 25 toy balloons so that Farman might judge of the wind currents.

NORFOLK HAS FIRE.

Large Establishments Are Burned and Loss is $90,000.

(By Wire to the Morning Star.)

Norfolk, Va., Aug. 3.—Fire tonight destroyed the big printing establishment of John W. Cherry, Commerce street, the Hampton Roads Company, wholesalers, and seriously damaging the office of the Adams Express Company. The damage will probably total $85,000 or $90,000.

At 1:30 this morning the fire broke out afresh despite the work of firemen and it is thought that it will get to adjoining building. Two firemen and two assisting sailors have been injured. Sam White, fireman, had his hand almost torn to pieces. Robert Evans, fireman, sustained a broken leg and sailor by the name of Silveratone and Flynn were slightly injured by flying glass.

BRYAN'S SPEECH SHORT.

Issues of Campaign Will be Discussed Briefly in Acceptance Speech.

(By Wire to The Morning Star.)

Lincoln, Neb., Aug. 3.—The speech of acceptance of William J. Bryan will be short. Mr. Bryan today said that by actual count it contained 5,300 words. The issues of the campaign will be discussed but not at great length, Mr. Bryan's views being reserved for more elaborate treatment in the several speeches he intends to make.

Although a scorching sun beat down upon Lincoln, rendering it difficult to find a comfortable spot anywhere, Mr. Bryan busied himself with a vast accumulation of mail. Especially gratifying to Mr. Bryan are the advices from the Democratic newspapers reporting steadily growing contributions to the campaign fund.

PETTIBONE IS DEAD.

Was Charged With Complicity In Murder of Gov. Steunenberg.

(By Wire to the Morning Star.)

Denver, Colo., Aug. 3.—George Pettibone, for years prominent in the councils of the Western Federation of Miners and charged with President Moyer and former Secretary Haywood with complicity in the murder of former Governor Steunenberg, of Idaho, died at St. Joseph's hospital tonight of the effects of an operation for cancer. Pettibone was never formally tried, but was discharged after the acquittal of Haywood and Moyer.

Bucklen's Arnica Salve Wins.

Tom Moore, of Rural Route 1, Cochran, Ga., writes: "I had a bad sore come on the instep of my foot and could find nothing that would heal it until I applied Bucklen's Arnica Salve. Less than half of a 25-cent box won the day for me by affecting a perfect cure." Sold under guarantee at R. R. Bellamy's drug store.

DISASTROUS FOREST FIRES

Number of Fatalities Reach 125 Persons With Loss of $8,000,000.

(By Cable to the Morning Star.)

Winnepeg, Man., Aug. 3.—Latest reports from the forest fires raging in and around Fernie, B. C., tonight place the number of fatalities at 125 persons and the property loss at about $8,000,000. From five to seven thousand men, women and children driven from the flames swept region or Crows Nest territory are camped in Cran Brook and surrounding hills.

The situation tonight at Michael is critical. Numerous fires started in the town this afternoon which were only put out by heroic exertions. Fires are raging on all sides and it only remains for high winds to arise and continue the destruction.

Hopes are faint for the safety of the place, for should the fire jump across the river it will be impossible to save the town. Not alone the new town, but the coal companies buildings and the entire old town will be doomed.

PACIFIC FLEET ITNERARY

It Sails on 24th Instant For Samoa Via Honolulu.

(By Wire to the Morning Star.)

Washington, Aug. 3.—The itinerary of the Pacific fleet from San Francisco to Samoa and return was announced today. The vessels, constituting the fleet, are:

First Division—West Virginia, Colorado, Maryland and Pennsylvania. Second Division—Tennessee, California, Washington and South Dakota. First torpedo flotilla—Truxton, Hull, Whipple, Hopkins. Second torpedo boat flotilla—Perry, Preble, Stewart. Torpedo supply ship—Solace. Collier ——Justin, to Honolulu only.

The fleet will leave San Francisco August 24th and, after stopping at Honolulu arrive at Pago Pago, Samoa, September 20th; leave Pago-Pago, September 27th and, after stopping at Honolulu, arrive at San Francisco, December 4th. While at Pago-Pago two armored cruisers and two destroyers will visit Apia for two days.

A JEALOUS LOVER'S DEED.

Fatally Shoots Young Lady in Wilkes County.

(By Wire to the Morning Star.)

Greensboro, N. C., Aug. 3.—News reached this city today of the fatal shooting in Wilkes county yesterday, of Miss Mary Ball by Freeland Tharpe. Miss Ball was a teacher in a rural school and Tharpe had been paing attention to her. She refused to go with him to church, but went with his brother instead, while Freeland Tharpe escorted another young woman. When they returned from church, just as Miss Ball was entering the house, Freeland Tharpe drew his pistol and fired three shots at her. One of the bullets entered her left breast an inch above the heart, inflicting a mortal wound. Tharpe is in jail.

Vice President James B. Doherty, of Richmond, Va., presided yesterday over the opening session of the annual convention of the Association of Labor Commissioners at Detroit, Mich., in the absence of President C. P. Neill, National Sommissioner of Labor. About 30 Labor Commissioners from various States are attending the convention.

The United States was in another International contest today when the motor boat Dixie II. defeated the British challenger, the Wolseley-Siddelly in a 30-mile race for the Harmsworth cup on Long Island Sound, off Huntginer, Huntington, L. I. This cup was captured in English waters two years ago by the American boat Dixie.

Wood's High-Grade Seeds.

Crimson Clover

The King of Soil Improvers, also makes splendid fall, winter and spring grazing, the earliest green feed, or a good hay crop.

CRIMSON CLOVER will increase the productiveness of the land more than twenty times as much as the same amount spent in commercial fertilizers. Can be sown by itself or at the last working of corn, cotton or other cultivated crops.

An Education In Itself.

We want you to come to our store and bring your children to see the magnificent display of "sponges" in our window. Not one child in 50,000 ever has the opportunity to see and study the great variety of sponges we have on display in our mammoth window.

Mandruka bath sponges from the Mediterranean; sheeps' wool sponges from Florida; Zimocca toilet sponges; Turkey cup sponges; elephant ear sponges; Bahama beef sponges; West India velvet sponges; shoe string sponges and a great variety of others ranging in price from 1c to $30.00 each.

Come and take a look at them whether you buy or not. You may never have another opportunity like this. Such a wonderful display of sponges of a very interesting character has never been seen in Wilmington before.

TOURIST'S INSURANCE.

A few points to note—

My personal baggage is worth $1,000. I am going on a Summer's outing, visiting the different resorts, Summer hotels, a trip to the Mountains or down to the Beach, where fancy calls.

INSURANCE? No! - Never thought of it, though I carry it at home of course. AND YET a few dollars will buy a TOURIST'S FLOATER, covering Fire everywhere, and practically all hazards of transportation, including Fire, Collision and Derailment.

What is a few dollars added to my Summer's expense, for this PROTECTION? For rates and forms see
